

The plants in and around the lagoon are important. They provide habitat for many of our wildlife species. Plant life ranges from small microscopic algae to large kelp living offshore. Coastal plants make up a habitat called coastal salt marsh. This project will create more coastal salt marsh habitat and improve water quality for plant life living in the lagoon.

The words below are hidden in this puzzle. Can you find them all?

PICKLEWEED
 SEA LAVENDER
 BRACKISH
 ARROWGRASS
 HALOPHYTES

ALGAE
 SALTGRASS
 JAUMEA
 SALTWORT
 CORDGRASS

VEGETATION
 PLANTS
 SALTMARSH
 SEA BLITE
 MARSH
